"Fight the Bite" with the SW Mosquito Abatement & Control District

The *Aedes aegypti*, an urban dwelling container mosquito, loves to hang out in yards and neighborhoods — places close to people. Its eggs can survive the mild winters to hatch at the first sign of water and warm weather. Be proactive to prevent this mosquito in your Spring cleaning. If you have experienced DAY BITING mosquitoes, please let us know how we can help. Contact the Southwest Mosquito Abatement & Control District office at 435-627-0076 or www.swmosquito.org

Scholarship Opportunity for High School Students

The Utah Associated Municipal Power Systems (UAMPS) annual scholarship program is underway for Santa Clara High School students. High school seniors were eligible to apply for a \$2,500 educational scholarship to support continuing education after graduation (3.0+ GPA required); however, the February 28, 2026 deadline has now passed. Current sophomores and juniors may still apply to attend a free week-long summer camp (July 6–10, 2026), receive a \$500 scholarship, and have opportunities to earn additional funds during camp, with an application deadline of April 3, 2026. All application details, essay prompts, and requirements are available at uamps.com/scholarship, and these scholarships are made possible through Santa Clara City's membership in UAMPS, supporting the education and future of students in member communities.
